IQMS User Letter 69 - Updated Guidance to GSOP 1581 V5 'Process EU FMD Alert'

Version: 1.0
Effective Date: 2025-03-03
Applicable to: Alert Operators, GBS/CQU managing alerts in IQMS

This User Letter provides updated Guidance to GSOP 1581, V5 regarding closing alerts in European Alert Management System (EAMS) where root cause is at the Bayer Site.

Current V5 GSOP 1581	**Future revised V6 GSOP 1581 (already valid with this User letter)**
5.5.2 Confirm Completion and Change Status	***5.5.2 Confirm Completion and Change Status***
-Send an external message to the alert as follows: "Upload of missing data successfully executed" -Change alert status to "Under Investigation" and tick "Issue fixed by OBP" -Change investigation status to "Root Cause On My Side" Remarks: Do not change alert status to "Closed"!	-Send an external message to the alert as follows: "Upload of missing data successfully executed" -Change alert status to "Under Investigation" and tick "Issue fixed by OBP" -Change investigation status to "Root Cause On My Side" Remarks: In case Bayer has generated the alert ("Root Cause On My Side") and independently if Bayer can solve the issue ("Issue fixed by OBP") or not ("Issue cannot be fixed by OBP"), the alert status is set to "Closed".

The introduced change to ***section 5.5.2*** is valid for the alert operators' activity but in the same way also for the CQU/GBS activity in ***section 5.5.3***.

This User Letter remains valid until the GSOP 1581 V5 is revised reflecting the change above.

Abbreviations: EAMS = European Alert Management System; EU FMD = European Falsified Medicines Directive (Directive 2011/62/EU)
which amended Directive 2001/83/EC; OBP = EMVS Onboarding Partner (= Bayer AG)

Support: Complaint Management
