1 Scope and Framework

1.1 Scope

Bayer Country Quality Units are accountable for a GMP compliant Product Technical Complaint Management within their respective countries. Within this responsibility they are supported by the respective Global Business Services in process steps like management of the complaint entry, initial classification, processing to the RQU, and final verification including complaint sample management, complainant response and reimbursement process.

This SOP defines clear guidance to the Global Business Service regarding all country specific requirements.

1.2 Framework

This SOP is based on principles and requirements outlined in SSC-PTC-SOP-001 “Manage Product Technical Complaint and Suspected Counterfeit Incidents in GBS”.

2 Abbreviations

AE	Adverse Event
CMO	Contract Manufacturing Organization
CQH	Country Quality Head
CQU	Country Quality Unit
GBS	Global Business Service
HA	Health Authority
EAMS	European Alert Management System
O2C	Order to Cash
PTC	Product Technical Complaint
PV	Pharmacovigilance
QAA	Quality Assurance Agreement
QMS	Quality Management System
RQU	Responsible Quality Unit
SEVeM	Spanish System of Medicines Verification (Sistema Español de Verificación de Medicamentos)
SSF	Shared Service Framework

3 Purpose & Set-Up

3.1 Purpose

Country Specific Requirements for Spain are described in this SOP, regarding e.g. Data Privacy, Sample Handling Process, Reimbursement Process, Contacts, escalation rules.

During the processing of all PTCs by Bayer owned Global Business Service all country specific requirements are considered and followed besides the general complaint handling described in the SSC-PTC-SOP-001 “Manage Product Technical Complaint and Suspected Counterfeit Incidents in GBS”.

3.2 General guidance

The employees of Global Business Services follow the SOP during complaint processing in the complaint database on behalf of the Country Quality Units.

3.3 Roles and responsibilities

GBS team	- Enters PTCs, Suspected Counterfeit Incidents and Usability Issues according to defined timelines in a timely manner, entering them into the global complaint database in English language. - Organizes missing information and asks CQU for any support contacting the complainant if not possible/allowed by GBS (e.g. data privacy, non-hosted language). - Performs categorization of complaints after receipt - Informs the CQU about all Initial risk Category High / Medium and PTCs where local authorities are involved, about all potential counterfeits and any other cases described in this SOP. Except for suspected counterfeits coming from FMD alerts. - Informs the respective PV about all PTCs with a potential associated AE or LODE or potentially reportable medical device complaints, including the unique complaint database number and all relevant follow-up information. - Forwards the case to the respective RQU for further assessment. - Check if a complaint sample is needed and start the process to organize shipping of the sample. - Prepare the shipping label if needed. - Reviews the case for plausibility and closes the complaint case in complaint database. - Sends out standard response letters in case it is agreed with the CQU (see section 4.1.6). - Supports the process for reimbursement management if needed. - Forwards all cases that are not PTCs back to the CQU or to the appropriate function for further processing. - Informs the CQU about confirmed quality defects with final risk category High / Medium.
Country Quality Head (CQH) / Country Quality Unit (CQU)	- Is responsible for regular KPI evaluation to get overview of complaint activities at the GBS. - Supports the GBS in organizing missing complaint information.

	- Sends out the Response Letters to the complainants as requested and agreed with the GBS (see section 4.1.6). - Ensures that all changes within the country law and regulation are directly notified to the GBS and that the Country Specific SOP is updated. - Ensures that the current list of distributed products is updated and contains all products.
O2C (Local or GBS BCN)	- Manages the retrieval of complained units (sample) and reimbursement process.
Warehouse	- Organizes the complaint sample and sends it to the RQU if requested.

4 Specific requirements regarding PTC handling

4.1 Country Specific Requirements listed by different topics

Description

4.1.1 General Information

In Spain the company operates under one legal entity as Bayer Hispania S.L. The main office is in Barcelona whereas Costa Rica is the location of the GBS.

4.1.2 Contact list

CQH: Maria José Sambola, mjose.sambola@bayer.com – Phone: + +34619218577

CQH Deputy: Cristina Batlle, cristina.batlle@bayer.com – Phone: +34619317638

Marina Veciana Molins *marina.vecianamolins@bayer.com*

Quality Staff (CQU): *qa_bhi@bayer.com*

O2C: atencionalcliente.es@bayer.com

Remark:
Current name and e-mail address of CQH and CQH deputy are found on the QINT SharePoint:

https://bayergroup.sharepoint.com/sites/oneqint/SitePages/Who%20are%20we.aspx#country-quality-list

4.1.3 Escalation Rules

Any complaint case referring to at least one of the following situations is escalated to the CQU immediately after its opening or in less of 24 hours (the shortest one) since the GBS acknowledges it in the global complaint database, unless there is evidence that they have been already informed.

- All initial cases with a potential initial risk category High / Medium
- Suspected falsification and counterfeit incidents (except those received from FMD alerts)
- Any cases involving Health Authorities
- Complaints related to Xofigo (Radiopharmaceutical therapy)
- Confirmation of quality requests
- Confirmed cases with final risk category High or Medium

The escalation should result in creation of an immediate action task in the complaint data base with the following information:

- Tittle: Reason for escalation
- Current due date: Same as the current due dates of the complaint.

Description

Remark:
The current names and e-mail addresses of the CQH and the CQH deputy are found on QINT SharePoint:
https://bayergroup.sharepoint.com/sites/oneqint/SitePages/Who%20are%20we.aspx#country-quality-list

4.1.4 Pharmacovigilance cases

If a complaint case is related to any type of Adverse Event, the Pharmacovigilance department must be informed to the following e-mail address: *pharmacovigilance.sweu@bayer.com*, unless there is documented evidence that any of the Pharmacovigilance departments have been notified.

In case additional information is needed for a Pharmacovigilance case, the PTC officer can contact them to the following e-mail address: *pvrc_la@bayer.com*

Remark:

AE/PTC cases received from Pharmacovigilance that do not require investigation, and do not have to be entered into any complaint data base, an email should be sent to pharmacovigilance with appropriate rational.

4.1.5 Product Samples

Sample retrieval and reimbursement process are performed by O2C (Accenture) and managed by opening Service Request tickets in SSF Tool for each complaint. Afterwards, O2C (Accenture) provides the SSF Service Request number to GBS .

The **number of tickets** created depends on:

- Whether the sample needs to be recovered or not.
- Whether the sample retrieval and reimbursement are done simultaneously or not.

There could be different situations:

A) Sample not required for the investigation:

O2C creates a unique service request which is identified by GBS as SSF Reimbursement Tracking.

B) Sample required for the investigation (since the first moment)

O2C creates a unique service request (SSF Sample Tracking) which relates to both, the sample retrieval and reimbursement. When the sample is received by the warehouse a notification will be sent to GBS to provide the address of the shipment.

C) Sample required for the investigation (after reimbursement has been performed).

1. O2C creates an initial service request for the reimbursement of the sample (SSF Reimbursement Tracking).

Description

2. Once the RQU requires the sample for the investigation, GBS requests O2C its retrieval. Then, O2C creates a second service request (SSF Sample Tracking) to manage the return of the sample. When the sample is received by the warehouse a notification will be sent to GBS to provide the address of the shipment.

The PTC Officer includes the sample tracking number in the Communication Protocol section in the complaint database when it becomes available via notification to the RQU

Product sample handling management depends on the source of the complaint:

A) If the complaint comes from a final costumer and the sample is declared to be available, the complainant is requested by PTC Officer to hand it over to the place where the product was purchased. When available, PTC officers forward the information of the establishment to O2C who takes care of sample retrieval.

B) When the complaint comes from Wholesalers, Health Centers / Hospitals or Pharmacies (direct costumers within Bayer Hispania S.L. product supply chain), first notified department should be O2C directly or through Bayer salesforces representatives who arranges the sample retrieval or reimbursement and provides the corresponding SFF sample/reimbursement tracking along with the original information of the complaint by mail to complaints.spain@bayer.com.

Remark:
For further information regarding samples handling, document **REGS-DE15-SUP-005375** can be also used for this purpose.

4.1.6 Statement letter

Acknowledgement Letter when a complaint comes in:

Complainants need to get confirmation that the complaint was received. This confirmation e-mail is in the form of notification to the client. GBS sends it only when information is received directly from the complainant or when no acknowledgement has been done previously. When an email comes from call center (MIIDAS), O2C, sales representative or PV as a PTC+AE request, acknowledgement has been already done by them and no further Acknowledgement letter from GBS is needed.

In case of Authority request and/or potential counterfeit, contact with authorities remains on the CQU side. Process flow can be found in annex 1, and templates of acknowledgement letter in annex 2 and 3.

Response Letter before closing:

As a general rule regarding the complaint database form, select YES in the "*Customer response required*" field, only if the customer explicitly requests a response or if the case comes from a HA request. For cases entered due to a PTC+AE request from PV, select always NO in the "*Customer response required*" field.

Description

A) Response Letter related to Health authority requests, initial risk classification high / medium cases, confirmed counterfeit and threats to inform the authorities, media, or blackmail against Bayer Hispania S.L. are always handled by the CQU. For this purpose, an immediate action will be initiated and assigned to GBS, upon completion of the assessment, GBS will reassign the task to the CQH who will provide the response, close the task and attach the evidence. Once the task is completed, GBS can close the case.

B) Any cases related to initial risk classification low in which the complainant explicitly asks for a final resolution of the quality investigation are handled by GBS. An immediate action will be initiated and assigned to the PTC officer. Upon completion of the assessment, the PTC officer will provide the response, and then the immediate action and the case will be closed. Response letters do not consist on copies of the complaint data base and must be attached into the complaint database before closure. All letters must be in local language.

Templates of response letters can be found in annex 4 and 5

4.1.7 RQU Contact list

There are three documents available on the Product Technical Complaint Handling - Operations SharePoint (go/ptcops) / SC Costa Rica / RQU List.

1. *Spain RQU List*: this document includes all products within the scope with the respective information needed to perform data entry (Manufacturing site/ Lead Investigation Unit). The responsible for assessment can be selected from the team section: “Owner” in the complaint database, list once selected the corresponding Owning organization.
2. *Spain Out of Scope Product List*: this document includes all products out of scope according to the GSOP 115. GBS follows 1.1 if Bayer is not the marketing authorization holder (MAH) or the legal manufacturer, GBS forwards it to the CQU (qa_bhi@bayer.com) who processes it according to their own procedures and QAAs
3. *Master List Complaint Responsibilities CH*: for Consumer Health Division's products the responsible of complaint assessment for each manufacturing site must be searched in this document.

List with the respective RQU contact names are provided by the Divisional Quality Assurance function and available on the SharePoint:

PH: *PH RQU responsible list_HJ.xlsx*

CH: *IQMS_MASTER LIST COMPLAINT RESPONSIBILITIES.xlsx*

Remark

Manufacturing sites can also be verified by using SYNAPS tool.

Division, Product type, and Manufacturing site can also be verified by consulting supplement: *ES-SOP-012-S4 (v44.0)* (IQMS-81622) *“Plazo de validez y Condiciones de almacenamiento de Productos Gestionados por BHI”*

Description

4.1.8 Data Privacy Requirements

For all electronic information provided, GBS must follow and apply the 'User Guide for Redaction of Personal Data in Complaint Attachments: *Complaints - IQMS Complaint Management Trainings* to ensure compliance with data privacy requirements.

All source documents containing personal data are currently located in the “Confidential Persons” section under “Attachment”. All necessary information for investigation must be transferred to the “Description” section of the complaint to allow RQU proper investigation.

4.1.9 Gathering Additional Information

Contact with the complainant to gather missing information regarding the complaint is done by the PTC Officer responsible for the case in local language. It is required that three attempts be made and properly documented under “Immediate Actions” in the complaint data base.

If only verbal communication is possible with the complainant, this may be done by theCQU upon request of GBS.

In case when the CQU receives a complaint firstly by a phone, then Product Complaint form (see Annex 6) is used to document received information. The CQU sends this form to the GBS via e-mail as soon as possible, because timeline starts when phoncomplaint is received by the CQU.

Remark

Case follow-up and sample retrievals will not be required when the complainant requests no return calls, or if no contact information is available.

4.1.10 Reimbursement and Replacement

Product reimbursement or replacement process is always initiated if the complainant declares that the sample is available, regardless of if the sample is needed or not for the investigation. Reimbursement process is managed by O2C and its approval rests on Business Unit decision.

A. Only direct costumers within Bayer Hispania S.L. product supply chain (Wholesalers, Health Centers/ Hospitals or Pharmacies) are eligible for the reimbursement of complained units. PTC Officer must confirm in the email communication that O2C is already notified so that the reimbursement process can be started. If it isn’t confirmed, PTC Officer will forward the information to O2C via email: *atencionalcliente.es@bayer.com*.
B. When a final consumer complaints and requests for reimbursement, GBS follows 4.1.5-A. The reposition/reimbursement to the final consumer/patient is never done by Bayer, the establishment where the unit was purchased manages this process on its own.

Description

4.1.11 Exceptions and special cases

- Animal Health related cases are not in the scope of this process, if any case is received, it must be forwarded to Elanco Spain S.L.U. by using the following email: ***csc_de@elancoah.com*** within 3 business date.

Additionally, for the following products, please ensure cases are forwarded directly to the corresponding contacts:

- Reandron: *maria.galindo@grunenthal.com*
- Nimotop: *medinfo.LXO@apcerls.com*
- Androcur: diana.naik@advanzpharma.com

- Any email related to a non-PTC case (e.g. customer inquiries) must be forwarded to the CQU by sending it to the following email: *qa_bhi@bayer.com*, unless the email does not contain valid information (e.g. spam, blank emails) or at least one of the CQU members is already notified. For these cases the service request can be closed without further actions.

- Information not requiring a complaint database entry: Adverse event reports that are not directly associated with potential product quality issues, except for medical devices or when the medical device constituent of a combination product is involved. When the received information is insufficient to relate a complaint with a particular Manufacturing Site.

- Trademark violation/Fraud Generics

Please refer to GSOP 115, Section3, for the applicable definition. Cases of this nature must be handled in accordance with UL63.

4.1.12 Others

Continuity of Complaint reporting

Due to the time zone difference between Costa Rica and Spain, the CQU may initiate a complaint database case if deemed urgently necessary (e.g. health authority request). The created complaint ID will be forwarded to the GBS via email to ensure no duplicates are generated. Also, the GBS can assume the complaint for Close step in the complaint database.

Complaint database Entry

- Awareness Date: When insufficient information has been received to initiate an investigation, and follow-up is necessary, the awareness date will be the date that the additional information was obtained. The case will include information, including dates, relating to all attempts made to follow-up.

Description

- Awareness date refers to the date that the GBS is aware of the case. In the event of a weekend or holiday, the clock for data entry starts on the next business day after the weekend or holiday.

- SSF number can be entered in the CRM field in the complaint database.

Closure

- Complaints confirmed as quality defect with final risk class high are informed to the CQU.

O2C SSF communication

- Before an e-mail is sent to *atencionalcliente.es@bayer.com* , always delete the footer of the email which says: ********* Please do not delete this text: {SrvReqNo:[##########]} *********". Otherwise, communication will fail.
- In order to assure the process traceability, every e-mail communication with O2C must be identified with the GBS SSF service request. It is expected that O2C follows the inverse process including their SSF service request.

FMD process

Follow the next instructions while entering the case in the complaint database form:

COMPLAINANT TYPE	Alert notification
TITLLE	Filled by Alert Operator
DESCRIPTION	Filled by Alert Operator
PHOTOS AVAILABLE FOR INVESTIGATION:	No
PHYSICAL SAMPLE AVAILABLE FOR RETURN	**No**
WHY PHYSICAL SAMPLE NOT AVAILABLE/NEEDED	Other
SAMPLE DESCRIPTION:	Complained units not recovered. Not needed for A3_RQU_4 alerts (Inactive S/N Reached Market). Only if issue is not solved by Bayer at EAMS as “Root in my side”, the unit can be requested (under RQU initiative)

Description	
NUMBER OF COMPLAINT PACKAGES:	As many as serial numbers described in the complaint database field “Description”
SPECIFIC RESPONSE REQUIRED	No, already provided by Bayer via European Alert Management System (EAMS)
FEEDBACK TYPE	Filled by alert operator
CUSTOMER FORBIDS FURTHER CONTACT	No
CUSTOMER RESPONSE REQUIRED (JUSTIFICATION):	No.
RESPONSE SUMMARY	Not needed except for - massive failure (when huge amount of units of one batch are affected) - if counterfeit is confirmed (then notification to National Health Authorities will be additionally required)

If RQU does not confirm the complaint as counterfeit, the case can be closed without further actions.

If RQU investigation confirms a counterfeit or a massive batch failure, CQU is immediately contacted. Response letter to SEVeM and to HA will be done by CQU according to 4.1.6 A).

8 Annex 2. Acknowledgement Letter

Apreciado/a Sr./Sra. ( ),

En primer lugar, queríamos dar acuse de recibo de su comunicación, vía ( ) , acerca de la incidencia acaecida con uno de nuestros productos de la línea ( )® y quisiéramos agradecerle que haya contactado con Bayer ya que, del análisis de los problemas que nos transmiten nuestros clientes podemos mejorar cada día tantos nuestros productos como nuestros procesos en aras de ofrecer el mejor servicio posible.

Le informamos de que se han activado los procesos para la realización de la investigación correspondiente siguiendo los procedimientos establecidos por Bayer.

Si precisa gestionar la reposición de la unidad afectada, por favor diríjase a la farmacia donde fue adquirida

Finalmente, deseamos trasladarle nuevamente nuestro agradecimiento por su confianza y el interés mostrados hasta la fecha en nuestros productos. Lamentamos las posibles molestias que esta incidencia le haya podido ocasionar.

En caso de futuras comunicaciones, por favor incluya el número de referencia ( ) dentro del cuerpo del correo.

Reciba un cordial saludo.

Atentamente,

Equipo Complaints Spain

Bayer Hispania, S.L.

Le informamos que los datos personales que nos ha facilitado son tratados por BAYER HISPANIA, S.L. Sociedad Unipersonal, con domicilio en Avd. Baix Llobregat 3-5, 08970 Sant Joan Despí (Barcelona), de acuerdo con la siguiente política de privacidad:

9 Annex 3. Acknowledgement letter and additional information request

Apreciado/a Sr./Sra. ( ),

En primer lugar, queríamos dar acuse de recibo de su comunicación, vía ( ), acerca de la incidencia acaecida con uno de nuestros productos de la línea ( ) ® y quisiéramos agradecerle que haya contactado con Bayer ya que, del análisis de los problemas que nos transmiten nuestros clientes podemos mejorar cada día tanto nuestros productos como nuestros procesos en aras de ofrecer el mejor servicio posible.

Para poder iniciar el proceso de investigación correspondiente siguiendo los procedimientos establecidos por Bayer, nos sería de utilidad disponer de la siguiente información:

- Número de lote de la unidad afectada

- Unidad objeto de la reclamación: Para dicha investigación nos interesaría disponer de la unidad objeto de reclamación para poder enviarla a fábrica, por lo que le agradeceríamos si pudiese entregar la muestra en el establecimiento/farmacia dónde la adquirió y que éste/a se pusiera en contacto con nuestro teléfono de Atención al Cliente (Tel.: 901 101 194) para informarnos de que dispone de la unidad, proceder a tramitar la recogida de esta y que le puedan reponer la unidad afectada. Agradeceremos, una vez entregada la unidad, nos informe del nombre del establecimiento/farmacia en el que se encuentra.

- Fotografías de la unidad en las que se pueda apreciar el defecto.

Finalmente, deseamos trasladarle nuevamente nuestro agradecimiento por su confianza y el interés mostrados hasta la fecha en nuestros productos. Asimismo, lamentamos las posibles molestias que esta incidencia le haya podido ocasionar.

En caso de futuras comunicaciones, por favor incluya el número de referencia ( ) dentro del cuerpo del correo.

Reciba un cordial saludo.

Atentamente,

10 Annex 4. Unconfirmed Defect Response Letter

Apreciado/a Sr./Sra. ( ),

Nos ponemos en contacto con usted en relación con la incidencia comunicada con nuestro producto ( ) ® el pasado día ( ).

En primer lugar, lamentamos la demora y quisiéramos agradecerle de nuevo su comunicación, ya que el análisis de los problemas que nos transmiten nuestros clientes nos permite continuar mejorando nuestros productos y procesos.

Le informamos de que se ha llevado a cabo la investigación correspondiente siguiendo los procedimientos establecidos por Bayer en relación con todas las reclamaciones que recibimos. Durante dicha investigación, además de revisar la información/muestras que nos facilitó, se ha comprobado la documentación y las muestras de retención relativas a la fabricación de este lote sin que se pueda detectar ningún evento potencialmente justificativo de esta reclamación. Por todo ello, no nos es posible confirmar que el defecto sea imputable al fabricante.

De nuevo, agradecerle su aportación que nos permite trabajar cada día mejor en aras a la plena satisfacción de nuestros clientes.

Esperamos que esta información sea de su interés y lamentamos las posibles molestias que le hayamos podido ocasionar.

En caso de futuras comunicaciones, por favor incluya el número de referencia ( ) dentro del cuerpo del correo.

Reciba un cordial saludo.

History of changes

Version	Significant changes with respect to previous version	Effective date
1.0	Initial release, not applicable	2020-09-21
2.0	1. New abbreviations added in chapter 2. 2. Responsibilities added for O2C 3. Update of the entire chapter related to the sample handling process (4.1.5). The previous process is no longer used to track the sample retrieval, SSF IT system is used instead. A description of different scenarios in which PTC Officers can have different tracking numbers is included. 4. Update in chapter 4.1.10. to include the possibility of the RQU to contact the client verbally upon SSC request. 5. Reimbursement workflow in chapter 4.1.11 was updated to modify the responsible of the process. e-mail address updated. Minor changes included. 6. Minor changes included in section 4.1.13. New wording added regarding the “Customer Response Required Justification” field in Dev@Com related to CRS programs. New paragraph including considerations while communicating with O2C through SSF. New wording added regarding the “response letter” field in Dev@Com related to FMD process and additional instructions added. 7. Minor changes in Annexes 8, 9,10 and 11. Disclaimer updated. 8. Deletion of Annex 12, since this step is no longer done by SCR.	2020-11-25
3.0	# Updated Distribution Sheet for Quality Regulations # References to SSC and SSCDN changed to GBS #2 Abbreviations added # 3.3 Updated roles and responsibilities. Added exception for escalation of FMD counterfeit cases. Added, Prepare the shipping label if needed. Supports for reimbursement if needed and escalation rule for final confirmed risk class I/II complaints # 4.1.2 Updated phone contacts. Updated SharePoint link # 4.1.3 Updated Escalation Rules. Added exception # 4.1.4 Updated. Added at exception to notify PV, added a PV contact, Added remark	2023-05-29

	# 4.1.5 Updated product sample process. Deleted sample retrieval process for CRS program # 4.1.6 Updated response letter section # Deleted list of Local Opportunities Products # 4.1.7 Added Remark # 4.1.10 updated section A # 4.1.11 Added exception regarding information not requiring a Dev@Com entry and non-PTCs # 4.1.12 Deleted CRS instructions for Dev@Com entry. Added Dev@Com data entry instructions. Added closure section. Update FMD response process.	
4.0	# Header section Updated: Document author and Training role. # 1.1 Updated wording of scope. # 3.3 Updated instructions for roles and responsibilities of GBS Team # 4.1.2 Updated Contact list # 4.1.3 Updated instruction of cases with initial risk classes I or II. # 4.1.4 Updated email address of pharmacovigilance department # 4.1.7 Updated instruction and reference of out of scope scenarios as per GSOP 115 requirements. # 4.1.8 Added instruction for data privacy requirements. # 4.1.11 Added new contact information for Reandron, Nimotop and Androcur products. # 4.1.12 Updated field names in the complaint database. Removed instruction for recommended revision by a second individual. Update of Response Requirement on FMD cases #7 Updated requirements of the Annex 1 process flow # Changed word “Dev@com” for “Complaint Database”	2025-08-20
5.0	# 4.1.2. Updated Contact list. # 4.1.3. Updated instructions on how to perform the escalation. # 4.1.5. Remark added. # 4.1.6. Updated instructions on how to assign the response letter. # 4.1.8. Updated Data Privacy instructions.	See Cover Page

	# 4.1.9. Updated instruction of gathering additional information. # 4.1.11. Updated Elanco email address Added trademark violation/fraudulent cases Annex 2. Update template. # 4.1.12 Updated form for FMD Process
