1 Scope and Framework

1.1 Scope

Bayer Country Quality Units are accountable for a GMP compliant Product Technical Complaint Management within their respective countries. Within this responsibility they are supported by the respective Global Business Service in process steps like complaint initiation, forwarding for investigation to the RQU, and final verification including complaint sample management and reimbursement process.

This SOP defines clear guidance to the Global Business Service regarding all country specific requirements.

1.2 Framework

This SOP is based on principles and requirements outlined in SSC-PTC-SOP-001 “Manage Product Technical Complaint and Suspected Counterfeit Incidents in GBS”.

2 Abbreviations

AE	Adverse Event
CMO	Contract Manufacturing Organization
CQH	Country Quality Head
CQU	Country Quality Unit
GBS	Global Business Service
OTC products	Over-the-counter products
PTC	Product Technical Complaint
PV	Pharmacovigilance
RQU	Responsible Quality Unit
SSC	Shared Service Center

3 Purpose & Set-Up

3.1 Purpose

Country Specific Requirements for Russia, Georgia, Azerbaijan, Armenia, partly for Belarus, Uzbekistan (PH), Turkmenistan (PH) and Mongolia (PH) are described in this SOP, regarding e.g. Data Privacy, Sample Handling Process, Reimbursement Process, Contacts, escalation rules.

During the processing of all PTCs by Bayer owned Global Business Service all country specific requirements are considered and followed besides the general complaint handling described in the SSC-PTC-SOP-001 “Manage Product Technical Complaint and Suspected Counterfeit Incidents in GBS”.

3.2 General guidance

The employees of Global Business Services are following the SOP during complaint processing in Compliant database on behalf of the Country Quality Units.

3.3 Roles and responsibilities

PTC GBS team

- manages PTCs and suspected falsification and counterfeit on behalf of the CQUs of the legal entity which introduces product into the market (e.g. Marketing Authorization Holder, Distribution license holder)
- Enters PTCs, suspected falsification and counterfeit i and Usability Issues according to defined timelines, into the global complaint database in English language
- forwards all cases that are not PTCs back to the CQU or applicable function for further processing
- performs the initial intake of complaints after receipt and considering the information provided by the PV in case of an AE and/or a medical device (incl. Medical Device constituent of combination product) is involved
- informs the respective PV about all PTCs with a potential associated AE or LODE or potentially reportable medical device complaints, including the unique complaint database number and all relevant follow-up information (e.g. Batch number)
- informs the CQU about PTCs where local authorities are involved, about all potential falsification and counterfeits and any other cases described in the Country Specific SOPs
- checks completeness and accuracy of information (including the photo or video, if available from the complainant) before forwarding the cases to the RQU
- Initiates first contacts with the complainant within the first 5 days of receipt of the complaint information to obtain follow-up information asks CQU for any support contacting the complainant if not possible/allowed by GBS (e.g. data privacy, non-hosted language)
- ensures translation of non-hosted languages
- forwards all cases to the respective RQU for further investigation and final assessment
- checks if a complaint sample is available and starts the process to retrieve the sample, documenting these efforts including the number of attempts requesting sample in detail in complaint database
- reviews the case for plausibility and closes the assessed complaint in complaint database
- support the process for reimbursement management
- responds to the complainant, for PTC+AEs in liaison with the PVCH and documents the response in the global complaint database or other cross-referenced system in cooperation with the CQU
- notifies the legal manufacturer of a device and where necessary, the manufacturer's authorized representative and the importer, if applicable.in case of any discussion or doubts contacts the CQH as the first line support

Country Quality Head (CQH) / Country Quality Unit (CQU)	- ensures the appropriate handling of PTCs, and suspected falsified and counterfeit incidents, reported in the respective country including the timely execution of the related activities, particularly for the entry of the cases into complaint database, forwarding them and for responding to the complainant - responds to the complainant, for PTC+AEs in liaison with the PVCH and documents the response in the global complaint database or other cross-referenced system in corporation with the Global Business Services - fulfills all obligations, e.g. PTC related reporting requirements defined by legislations or regulations - oversees and monitors the whole PTC process for products on market of their legal entity in case of delegation to GBS by controlling appropriate Key Performance Indicators according to GSOP 1372 “Perform Country Quality Management Review”.

4 Specific requirements regarding PTC handling

4.1 Country Specific Requirements listed by different topics

Description	Assigned Roles & Document Reference
4.1.1 General Information In Russia the company operates under legal entity Bayer JSC. The main office is in Moscow. The Russian division of Bayer represents the interests relating to PTC handling of such countries as Georgia, Azerbaijan, Armenia, and Belarus. Quality Contact person is appointed in Belarus. Partly RU Quality department represents the interests relating to PTC handling of Pharmaceutical divisions in Uzbekistan, Turkmenistan and Mongolia.	
4.1.2 Contact list CQH Russia CIS - Olga Anokhina: *olga.anokhina@bayer.com* CQH Deputy – *Evgeniya Shatalova evgeniya.shatalova@bayer.com* General e-mail CQU RU: *ptc.russia@bayer.com* General email to PTC GBS team: *ptc.ru@bayer.com* **Remark:** Current name and e-mail address of the CQH and the CQH deputy are found on the QINT SharePoint: *Country Quality List*	
4.1.3 Escalation Rules The CQH and the CQH deputy should be notified via e-mail (also via generic CQU address if applicable) about any complaint case referring to at least one of the following situations: - All cases with potential risk classification High or Medium* - Suspected Counterfeit Cases - Any cases involving Health Authorities - Cases with final risk classification High or Medium *potentially life-threatening or could cause a serious risk to health Above Escalation Rules are applicable for complaint cases from Georgia, Azerbaijan, Armenia, Belarus, Uzbekistan (PH), Turkmenistan (PH) and Mongolia (PH) without exceptions GBS to ensure escalate immediately to divisional Gatekeeper if the case is potentially life-threatening or could cause a serious risk to health. GBS to follow the instruction from divisional QA. **Remark:** Current name and e-mail address of the CQH and the CQH deputy are found on the QINT SharePoint: *Country Quality List*	GBS

Description	Assigned Roles & Document Reference
4.1.4 Pharmacovigilance cases **PTC+AE case is received initially by CQU.** If consumer's complaint is related to any type of Adverse Event (PTC+AE), then CQU informs Pharmacovigilance without undue delay. In parallel CQU forwards complaint to GBS after depersonalization (see chapter 4.1.9). Local PV email*: drugsafety.russia@bayer.com* **PTC+AE case is received initially by local PV.** If local PV receives PTC+AE/PTC cases first, the information is forwarded to the CQU. The CQU forwards the complaint to GBS after depersonalization. In case any PTC+AE request is received by GBS from other source than CQU, then GBS informs CQU.	CQU GBS
4.1.5 Product Samples The sample handling process described below is applicable for complainants from the Russian, Georgian, Azerbaijan, Armenia markets and Uzbekistan (PH), Turkmenistan (PH) Mongolia (PH) markets as well. The complaint sample is physically retrieved and shipped to manufacturing site if it is required for investigation of a complaint or requested by the RQU. PTC officer is authorized to request the complaint sample if complaint relates to suspected counterfeit, potential risk category High-Medium, complaint reason is not clear or not visible in provided photos/video. In case complaint sample is required for an investigation GBS informs CQU via e-mail (sends to e-mail *ptc.russia@bayer.com)* that the sample is requested for an investigation and must be retrieved. CQU having the consumer's contacts requests the sample and documents attempts of a sample requesting. In case of absence of sample provides GBS with the reason. CQU is responsible for obtaining a sample from individuals. The complaint sample from individuals is provided to Russian Bayer office. In certain cases, the sample is available at Bayer warehouse and can be shipped to RQU. When the sample arrives at Bayer office RU or the warehouse, a notification is sent to the logistics department by CQU. Samples are shipped to the RQU by the logistics department employee via courier services (e.g. DHL, Vortex). CQU notifies about the sample sending GBS team via e-mail. GBS responsible person includes this information into Complaint Database. Samples of the distributor's complaint cannot be provided for an investigation due to a necessity of RQU final assessment to make a compensation decision.	GBS CQU

Description	Assigned Roles & Document Reference

The sample handling process in Belarus is described in the Country specific SOP for Belarus (SSC-PTC-SOP-BY-005).

4.1.6 Statement letter

GBS

Acknowledgement Letter when a complaint comes in:

Due to data privacy requirements no acknowledgement letter is sent out by GBS.

Response Letter after closing:

The response to the reporter is provided by the CQU or Customer Service department (for wholesalers' complaints).

After final case closure the GBS should notify CQU (via email) or Customer Service (in the E-Com system, see chapter 4.1.14) about the investigation outcome. GBS to share Formatted output for all cases closed by GBS. It should include:

- complaint id
- product name and batch number
- conclusion
- counterfeit related conclusion (in case complaint was associated with suspected counterfeit, smuggling, etc.)
- Formatted output from Compliant database as attachment

Recommended template of the notification is available in Annex 2.

In certain cases, the CQU/Customer Service might request PTC officer to prepare a draft of the final response to the reporter. GBS prepares a draft based on Annex 3.

4.1.7 RQU Contact list

GBS

For CH products registration status in the respective country as well as Manufacturing Site are available via SYNAPS: go/synaps.

List with the respective RQU contact names are provided by the Divisional Quality Assurance function and available on the SharePoint:

PH: *PH RQU responsible list_HJ.xlsx*

CH: *IQMS_MASTER LIST COMPLAINT RESPONSIBILITIES.xlsx*

4.1.8 List of Local Opportunities Products

List of Local Opportunities Products is provided below. Products are produced by contract manufacturers and Lead investigation unit is CQU RU (Name in Compalint database: CO Russia (RU01)).

Product name	Manufacturing site
Relie Balance	VTF Ltd. (Volginskiy)

Description	Assigned Roles & Document Reference

Theraflex® Plus	
Theraflex® Ultra

Theraflex®	Makiz-Pharma LLC (Moscow)
Theraflex® Advance	
Calcemin®	
Calcemin® Advance	
Antiflu® Kids	
Ultravist®	Scientific Technological Pharmaceutical Firm Polysan (St. Petersburg)
Gadovist®	
Magnevist®	
Xarelto®	

4.1.9 Data Privacy Requirements

Federal Law of the Russian Federation of July 27, 2006 No. 152-ФЗ “On Personal Data” regulates activities related to the processing of a private data in Russia. Data privacy requirements are applicable for all information about individuals (name, address, phone number, e-mail), i.e. it is not allowed to transfer them to GBS.

Based on the foregoing complaints are managed only after depersonalization.

Depersonalization is performed by CQU for each incoming complaint from individuals, namely name, phone number, e-mail are shortened (e.g. МАП, 122, va@).

The awareness date for Complaint starts when CQU open and read a complainant letter. The deadline for an entering data into Compliant database includes data depersonalization activities. Timelines specified for complaint initiate in Compliant database for different initial risk classification are shared between CQU and GBS.

After opening complainant letter CQU conducts primarily evaluation and determines the urgency of PTC (urgent PTC is considered in case of risk classification High or Medium).

Depending on the urgency of Complaint timelines for depersonalization data and data entering are as follows:

Initial Risk Classification	Data Depersonalization by CQU	Data Entry by GBS	Total timelines
High/Medium*	12 hours	12 hours	1 day
Medium/Low	max. 4 days	min. 1 day	5 days

Description	Assigned Roles & Document Reference

***** Cases requires immediate escalation within 24 hours, e.g., for serious public health threats, potentially life-threatening cases, cases potentially requiring a FAR.

Remark: If a complainant provided all mandatory data, CQU forwards the PTC to GBS as soon as possible, and no later than 24 hours before timeline end for risk classification Medium and Low and 12 hours for risk classification High/Medium*; if not all data were provided by complainant - with the first message. CQU includes date of first awareness of a PTC in the message subject sent to GBS. Additionally, in case of urgency, remark "Urgent" is also added to the message subject to ensure that PTC can be recognized and prioritized by GBS.

4.1.10 Gathering additional information (including obtaining translation)

GBS
CQU

In case when the CQU receives a complaint firstly by a phone, then Product Complaint Form (see Annex 1) is used to document received information. The CQU sends this form to the GBS via e-mail as soon as possible, because timeline starts when phone complaint is received by the CQU.

The Russian language is a hosted language in GBS Dalian. Such languages as Georgian, Belarussian, Azerbaijani, Armenian, Uzbek, Turkmen and Mongolian are not hosted in GBS Dalian. However, all complaints from those counties go through CQH/CQU RU and they are previously translated into Russian or English.

The contact with the private complainant to gather missing information regarding the complaint is performed by CQU RU who stores the consumer data (see chapter 4.1.9).

4.1.11 Reimbursement and Replacement

GBS
CQU

Whether a reimbursement for a product is granted, depends on final RQU assessment. The process is given below.

4.1.11.1 Complaints by individuals

In case of complaints raised from individuals, reimbursement for the product is possible only for confirmed PTC through the reverse supply chain and directly from Bayer office RU.

CQU ensures and conducts the reimbursement for individuals according to the local procedure.

4.1.11.2 Complaints by Distributors or Wholesalers

In case of complaints raised from distributors, reimbursement for the product is possible only for confirmed PTC.

The notification regarding investigation results and conclusion is provided by GBS to Customer Service via E-Com system. (See chapter 4.1.14)

Refund management is under O2C/Commercial department responsibility.

Timeline for providing a response from Bayer to a distributor is specified at local Commercial agreement and limited to 70 calendar days. In case of exceeding the deadline for providing a response, the complaint is considered as confirmed.

Description	Assigned Roles & Document Reference
4.1.11.3 Complaints from the other markets **Georgia, Azerbaijan, Armenia, Pharmaceutical divisions in Uzbekistan, Turkmenistan and Mongolia** Reimbursement for the product is possible only for confirmed PTC. Prepared standard response for confirmed PTC (Annex 3) is provided to CQU by GBS (see chapter 4.1.6). CQU processes with reimbursement to the complainant. Compensation is organized between distributors and Bayer AG (for PH products) and between distributors and Bayer JSC, Russia (for CH products). **Belarus** Reimbursement and Replacement in Belarus is described in the Country specific SOP for Belarus (SSC-PTC-SOP-BY-005).	
4.1.12 Mandatory Spot Checks for Translations For all countries where the complaints are sent out for translation to the BS translation office once a year mandatory spot checks must be performed. 5% of all complaint numbers per year should by checked by native speaker (based on random selection), e.g. CQU. Important is to check the “original income text” with “translated text” provided by BS translation office. The GBS is the owner of the process and start this action. The GBS leads the process, picks the cases and provides report to the CQU. The CQU checks the translation and indicates the deviations. Acceptance Criteria: • No Major translation deviations • Total number of Minor translation deviations is less than 5%. Deviations in the translation can be described as Minor or Major. • Minor translation deviations are deviations where a single word or short section of a sentence has been insufficiently translated, but the essence or meaning of the original message is still captured. • Major translation deviations are deviations where a single word or short section has been incorrectly translated (for example by the introduction of a new word or exclusion of a word from the original complaint in the translated version) which results in an incorrect essence or meaning in the translation of the original message. In case of a major translation deviation and exceeding the 5% minor cases, the GBS will be informed promptly to open a deviation in Compliant database and to ensure appropriate CAPAs. In addition, the translation office needs to be informed.	GBS
4.1.13 Exceptions and special cases Complaints/request raised by HA, both CH and PH products, always processed in first priory, GBS to complete case initiation within 1 day after received.	

Description	Assigned Roles & Document Reference
GBS to ensure all Complaint database information transferred to CQU.	

4.1.14 Others

4.1.14.1 Complaints from distributors/wholesalers.

All claims from distributors are registered by Customer service group in the local system E-Com. The system sends notification about newly issued case to the PTC.RU email address. The email contains link to the case in the E-com. All comments, requests as well as the final response for the case must be placed in the Comments field in the E-Com system. All photos, documents related to the case are available in the “Files” section of a particular claim.

Initially the complaint is reviewed by the warehouse manager. If the warehouse manager makes a conclusion that the defect is out of a manufacturer responsibility, the PTC officer place the comment as follows:

“Based on the conclusion of the warehouse manager, the case is not registered in the complaint database and not be investigated. Approved nominally” and reconciles the case.

If the warehouse manager concludes the case is a matter of manufacturer`s responsibility, or it is unclear without the investigation, the PTC officer leaves the comment about the duration of the investigation and proceeds as normal PTC.

After the investigation is finalized, GBS places comments with the conclusion in the E-com, reconciles the case and leave comment in the complaint database that customer service manager was notified.

4.1.14.2 Internal complaint

When PTC occurs or already exist prior product leave Bayer to market phase, the PTC type is classified as internal complaints. Since CQUs have no access to Complaint database, GBS perform internal complaints handling on behalf of CQUs.

CQUs or the colleagues who share internal complaints notifies GBS the PTC type. Select the complaint type as “Internal” in complaint database. Sample handling, gather additional information etc. could refer external PTC handling produce described in this SOP.

4.1.14.3 RQU Activity on behalf of CQU

In general, CQUs act the lead investigation unit for all Local Opportunities Products. Since CQUs have no access to Complaint database, GBS enter required information into complaint database on behalf of CQUs.

Firstly, CQU forwards PTC case to GBS to complete case initiation. In pararenal, CQUs inform the local responsible unit to start investigation.

Description	Assigned Roles & Document Reference
Once local responsible unit for example CMO complete case initial review, CQUs collect the case initial risk classification, initial error code and forward such information to GBS. GBS perform entry into Complaint database. When the local responsible unit provides investigation report, CQU fills out the Local Investigation Report Form for contract manufacturers of AO BAYER (Annex 4) and forwards it along with the investigation report to GBS. GBS enter investigation result into Compliant database and attach both Local Investigation Report Form for contract manufacturers of AO BAYER and investigation report into Complaint database. GBS then sends to the closure step. GBS to follow session 4.1.6 to close and response to CQU.
